Technologies: React.js, Node.js, Express, MongoDB, Firebase, REST, Bootstrap, Git, Linux

EXPERIENCE

USF RecWell

Tampa, FL

Esports Program Supervisor

8/22-Present

- Maintained the USF RecWell Esports lab, ensuring a conducive environment for 15+ esports clubs and teams.
- Resolved player conflicts in a diplomatic and timely manner increasing player satisfaction by 20% as measured by post-participation surveys.
- Involvement in USF Esports marketing and content production.

PROJECTS

AI Nomad Navigator | JavaScript, React.js, Node.js, Express, MongoDB | <https://github.com/moyo-ayy/trip-planner>

- Engineered an AI-powered road trip planner using the OpenAI API, Google Places API, React.js, and Node.js at the Shell hacks Hackathon with 3 other people.
- Managed the GitHub repo and API services while also enhancing the front end, resulting in a 20% reduction in page load times.

Vinyl-Verse | JavaScript, React.js, Node.js, Express, MongoDB, Firebase Auth | <https://vinylverse.netlify.app/>

- Fabricated the front end for the music review website using React.js and relevant libraries.
- Developed the REST API serving 800+ requests a month allowing users to view music data, comment on albums, and like comments they agree with.
- Implemented Firebase authentication to provide the full-stack application with a login feature.
- Promoted user engagement by 25% by only listing relevant monthly releases.

RSVP Discord Bot | Python, Discord API | <https://github.com/moyo-ayy/discord-rsvp-bot>

- Constructed a Discord bot that creates an event or meeting for a specific time and allows users to RSVP for the event.
- Increased player engagement by 50% in servers where the discord bot was utilized.
